Gary,

Here is an update on site progress.

Sincerely,

Tim

Subject: Yesterday and Today

To all:

Yesterday we completed collection of the 7 ICWW sites. I shipped out our split sample EIWSED02 yesterday. The tracking number is 863215650841. Today, no

9543137

sampling will actually occur. The samplers will be conducting a test run with non site sediment to test their centerafuges and become comfortable with them. Also sometime today we will be re-evaluating the locations for pore water potential and I will provide my input on the situation. Please call me if you have any questions (914-850-4894).

Mike
